Strawberry flavor with fruit pieces, Vanilla flavor with crunchy whey crisps, Chocolate flavor with chocolate shreds

Sizes

900 g - 30 servings, 2160 g - 72 servings

Product Description

***100% of protein from whey**

The first aspects one experiences when using a protein is mixability and taste. Everything else comes after these! 100% WHEY PROTEIN SUPERB is supremely awesome tasting, mixes easily, and of course provides protein from one of the

finest protein sources on Earth. On top of it all, it has real fruit pieces, chocolate shreds or whey-rice crunchy crisps (depending on the specific flavor)! Is there a better, tastier way to deliver your desired amount of protein in one sitting?

100% WHEY PROTEIN SUPERB is a tremendously high-quality protein exclusively from cold-processed whey. Dietary proteins are a source of nitrogen and essential amino acids, which the body requires for tissue growth and maintenance. That's why 100% WHEY PROTEIN SUPERB contributes to the growth and maintenance of muscle mass, and also to the maintenance of normal bones*. Whey protein from milk is a complete protein, because it provides the body with all the necessary types of amino acids, including the 9 amino acids the body cannot synthesize and must be supplied by the diet ("essential" aminos): Histidine, Isoleucine, Leucine, Lysine,

Methionine, Phenylalanine, Threonine, Tryptophan, Valine.

To make 100% WHEY PROTEIN SUPERB even more complex, we made sure to add extra L-Glutamine and Taurine to the formula, both widely used and popular free amino acids!
