Product Summary

Directions

Mix 1 serving (153 g) with 500 ml water. Use daily, preferably right after training.

Allergen info

Manufactured in a facility that processes milk, egg, gluten, soy, peanuts, nuts, fish and crustacean ingredients.

Warnings

Beta-Alanine may cause a harmless, temporary tingling sensation on the skin for some individuals. Use this product in conjunction with food as part of a healthy,

balanced diet, not as a substitute for such. Keep out of the reach of children! DON'T EXCEED THE RECOMMENDED DAILY DOSAGE!

Flavors

banana-yogurt, brownie praline, brittle white chocolate

Sizes

1530 g – 10 servings, 3060 g – 20 servings

Product Description

- 50 GRAM MULTI-STAGE EXTENDED ABSORPTION “5-PROTEIN” MATRIX!
- “7-CARB” BLEND INCLUDING OAT FLOUR, MODCARB™, HIGHLY BRANCHED CYCLIC DEXTRIN, PALATINOSE™ AND WAXY MAIZE!
- 6 TYPES OF CREATINE INCLUDING THE MOST CONCENTRATED CREATINE IN THE WORLD + CREAPEP™ PEPTIDES!
- NO BOOSTER NOP-47™ SELECTIVELY ENRICHED BIOACTIVE PEPTIDES!
- 8 DIFFERENT MATRIXES TO COVER THE BODY'S NEEDS: 10,000 MG

Our legendary JUMBO muscle gainer line further evolves! These were already professional level products, JUMBO meant “BIG!”, JUMBO meant “STRONG!”, but our latest JUMBO HARDCORE version brings improvement to every single detail! JUMBO was originally designed to be a step above simple dextrose, maltodextrin based gainers, and to have a great caloric yield and significant amount of extra ingredients. Our new “7-CARB” blend is even more complex: it contains oat flour, the branded ModCarb™ (from Oat Bran, Organic Quinoa, Organic Amaranth, Organic Buckwheat, Organic Millet), Highly Branched Cyclic Dextrin, the longer lasting energy providing Palatinose™, as well as Waxy Maize. Importantly the product is not full of simple sugars!

Previous JUMBO formulas contained only a single protein source (Whey), but JUMBO HARDCORE features a multi-stage, extended absorption “5-PROTEIN” MATRIX with instantized Whey Protein Isolate, Micellar Casein, Hydrolyzed Beef Protein Peptides, Rice Protein besides the Microfiltered Whey Protein base. This is a net 50 g intact

protein matrix, all other added amino acids indicated in the Nutrition Information box are valuable extra aminos above this protein amount!

We included 8 different matrixes in JUMBO HARDCORE to cover the body's various needs totaling 10,001 milligrams. One such matrix consists of 6 types of Creatine including the most concentrated Creatine in the world plus the branded insulin stimulating, Creatine utilization enhancing CreaPep™ Peptides! Two amino matrixes provide fast acting important amino acids, many in micronized form: the AMINO SELECT MATRIX has grams of micronized Glutamine, Taurine, Alanine, Phenylalanine, Lysine, Ornithine and AKG, plus the BCAA XPRESS COMPLEX provides extra micronized Leucine, Isoleucine, Valine!

Totaling the amino acid composition of a serving (including the proteins' amino acid content plus the added amounts) JUMBO HARDCORE provides 5670 mg Leucine, 2580 mg Isoleucine, 2520 mg Valine, 8250 mg Glutamine and 2390 mg Arginine in a 153 g serving! The HEMO-NO MATRIX consists of different types of Arginines (Micronized Arginine, AAKG Arginine Alpha-Ketoglutarate) and the similarly Nitric Oxide (NO) boosting NOP-47™ selectively enriched bioactive peptides!

The PERFORMANCE BOOSTER MATRIX gives you Betaine, Beta-Alanine and L-Carnitine to arm you with further weapons in training! The RECOVERY MATRIX helps dealing with post-exercise negative processes. Vitamin C helps to maintain the normal function of the immune system during and after intense exercise. The beneficial effect is obtained with a daily intake of 200 mg (found in 1 serving) in addition to the recommended daily intake of Vitamin C!*Finally, the remaining matrixes provide extra micronutrient and plant extract support, including Vitamin D that contributes to the normal function of the immune system and to optimal muscle function, and also to the maintenance of normal bones, teeth, and to the normal absorption, utilisation of Calcium and Phosphorus!* The mineral content of JUMBO HARDCORE contributes to normal muscle function, normal functioning of the nervous system, energy-yielding metabolism, neurotransmission and to the maintenance of normal bones and teeth*.With its 46 quality and effective active ingredients JUMBO HARDCORE is massive and can help you become really massive

too! This versatile formula is appropriate for everyone with individualized dose adjustments.
