Warnings

Use this product in conjunction with food as part of a healthy, balanced diet, not as a substitute for such. Keep out of reach of children. **DON'T EXCEED THE RECOMMENDED DAILY DOSAGE!**

Product Description

***100% of protein from whey**

100% Whey Protein Professional is an excellent quality whey protein blend with whey concentrate and whey isolate. Dietary proteins are the source of nitrogen and

indispensable amino acids, which the body requires for tissue growth and maintenance. Therefore 100% Whey Protein Professional contributes to the growth and maintenance of muscle mass, and also to the maintenance of normal bones*. Whey protein from milk is a so-called complete protein, because it provides the body with all the necessary types of amino acids, including the 9 amino acids the body cannot synthesize and must be supplied by the diet (i.e. Histidine, Isoleucine, Leucine, Lysine, Methionine, Phenylalanine, Threonine, Tryptophan, Valine). 100% Whey Protein Professional has more added components: an “Amino Acid Matrix” that provides popular extra amino acids, namely L-Leucine, L-Glutamine and Taurine. Also, the digestive enzyme blend of Papain and Bromelain is included in our formula!
